

Behold the latest creations from Metro...

Smart Roofs for Smart People®

Metro offers a roofing line that's worthy of any house of worship, from our distinctive rustic MetroSHAKE® panel to the low-profile and clean lines of MetroSHINGLE® or the rich graceful curves of MetroROMAN® or Metro TILE®. They all add up to a smart investment for your congregation.

Metro lightweight (1.5lbs/sq ft.) panels can enhance an existing building or a new facility without burdening the structure. And with a heart of steel coated by an advanced stone coating they offer the best protection for your investment.

With Metro stone-coated steel panels you can choose the look that's just right for your church and it won't curl, break or burn and requires low maintenance. The marriages of Stone & Steel create a tough barrier against the elements offering long-life performance and peace of mind.

Smart Roofs for Smart People®

A Style for any Architecture.

Every panel is formed from 26-gauge *Galvalume® steel, covered with 100% acrylic resin basecoat, embedded with natural stone granules and is finished with a clear 100% acrylic over-glaze. Metro panels offer a durable, lightweight and long-life roof that outperforms most traditional materials and provides the industry's best high-wind performance.

Metro panels are backed by a great warranty covering 120-mph winds and have a Class-4 Hail Impact (UL 2218) Resistance Rating. Our panels offer today's religious facilities a material that will provide years of high performance protection.
